Date; 2005

Value £330,000

Having undertaken phase one works comprising civil engineering enabling works such as drainage, bridge abutments and the new car park, Britcon were awarded the prestigious contract to construct a new visitor centre at Potteric Carr for Yorkshire Wildlife Trust.

Although conventionally constructed utilising a steel frame the completed single storey building sat very well within the surroundings of the wildlife park.

Opened in June 2005 by the actor Brian Blessed, himself a patron of the Yorkshire Wildlife Trust
