Britcon's strategy for sustainability - "Responsible Business, Positive Outcomes" - recognises that our business has an impact on the environment and we are committed to managing and reducing that impact through the adoption of our environmental policy.

### **Policy Aims**

To ensure effective implementation of this policy we will:

- Identify and fulfil our compliance obligations, including all legislation, standards and codes of practice, which are relevant to our business;
- Continue to improve our environmental performance through effective communication, provision of staff training and adoption of best techniques available;
- Use energy and fossil fuels efficiently so as to reduce our carbon emissions;
- Prevent pollution incidents;
- Reduce the amount of waste generated by our activities, sites and premises and the percentage that is sent to landfill;
- Conserve water by reducing demand at our sites and premises;
- Be a respectful neighbour by minimising the impact that our activities, sites and premises have on local communities;
- Protect and, where feasible, enhance biodiversity on sites and premises where we hold responsibility or can influence those that do;
- Seek to influence our clients to adopt, and our designers to provide, solutions that benefit the environment;
- Promote, as far as is reasonably practicable, responsible sourcing and the purchase of materials and services that through their use, sourcing or manufacture, have the least harmful effect on the environment;
- Minimise the need to travel but, where travel is unavoidable, use modern and efficient modes of transport;
- Work with our supply chain to help them improve their own environmental performance.
