

Britcon (UK) Limited

Environmental Policy

The Directors of Britcon UK Ltd are resolved that the business activities, products and services undertaken and delivered by the company shall be carried out with due regard to the effects they may have on the environment and in compliance with all relevant environmental legislation and other applicable statutory and legal requirements and in accordance with BS EN ISO 14001:2015. The identification and analysis of these effects or aspects, shall be used as a framework to establish environmental objectives and targets and opportunities for continual improvement purposes for the company, as well as providing a platform for the effective management of risk.

As a responsible company we consider it vital that all persons working directly or indirectly for Britcon UK Ltd are familiar with this environmental policy. Consequently they are properly trained in the company's Environmental Management systems to enable them to perform in the most environmentally effective and conscientious manner to achieve their environmental targets.

The company is responsible for all environmental activities on all its sites and at its main yards at the head office and the Wakefield office and for all its vehicles, materials and equipment used in all its construction processes, which shall be subject to the same environmental considerations by all management and staff.

The Directors actively invite and respond to all feedback from all its clients, which shall be analysed and used for continuous improvements in all of our activities.

It is of the utmost importance that the company is and is also seen as a caring and environmentally aware organisation which has developed systems for the prevention of pollution in all its activities. To enforce this, the environmental policy, procedures, objectives and risks are reviewed and improved as necessary and are available upon request to all interested parties and stakeholders.

This policy statement was adapted by resolution of the board of directors in January 2018.
